

# SIDMA COLLEGE **PROSPECTUS** 2019

### SIDMA College Sabah -----

Greetings and very warm wishes.

It gives me tremendous pleasure to write this foreword for SIDMA College. Ever since we started operating as a private college in Kota Kinabalu in 2002, we have produced more than 5,000 graduates, both at diploma and degree levels as well as some who graduated at Master and Ph.D. levels. In the last two decades, the progress of higher education in Malaysia has been quite exceptional where there has been a rise in the number of new private higher educational institutions throughout the country. Since we started accepting students in 2003, we have continuously improved and upgraded our program offerings and only qualified lecturers (licenced and approved by relevant authorities / agencies) are assigned to teach accredited subjects.

Currently, SIDMA College collaborates with UNITAR International University, where we are the largest UNITAR Regional Centre in the country with about 2,000 active students. We also collaborate with Cyberjaya University College of Medical Science (CUCMS) for the Diploma in Occupational Safety and Health (DOSH) program. I take pride in saying here that we have been able to produce marketable and relevant graduates, who are able to meet the needs of the 21st Century workforce requirement of the public as well as private sector in Sabah. Our graduates are trained to face challenges. We are committed to educating the next generation of professionals across a wide range of disciplines and the students will learn other

important lessons along the way, lessons that will allow them to succeed in all aspects of life. We also train our students to have a balanced life to make them ready for the real world. The result has been very obvious. Our graduates are highly regarded and get good jobs and paid above average and competitive salaries. Our highly charged and positive minded campus environment has enabled the graduates to project themselves well in society and in their places of employment.

SIDMA College is a private higher learning institution offering academic programs from various faculties such as the Faculty of Education and Social Sciences (FESS), Faculty of Business Administration (FBA) and the Faculty of Hospitality and Tourism Management (FHTM). The College, in its vibrant and dynamic environment strives to focus on teaching and learning and discovery of new knowledge with integration of quality education, qualified teaching staff, excellent services and innovation.

Under the leadership of Founder and Chairman Dr. Morni Hj. Kambrie, trusted Board of Directors and dynamic team of managers; the college prospers over the years. It has rapidly emerged as one of the largest regional centres in East Peninsular Malaysia running UNITAR's and its own homegrown programs.

First established in Sarawak in 1998, the college was formerly known as Institut Pengurusan Dinamik Seminar (IPDS). It extended its operation to the Land Below The Wind - or Sabah in 2002. Upon establishment in Kota Kinabalu, the college leased a two-storey building of approximately 23,000 sqft and had its first batch of 34 students in 2003. Gradually, it grew to with over 2000 active and registered students, The College is now located at its own 50,000 sqft City Campus at Jalan Bundusan.

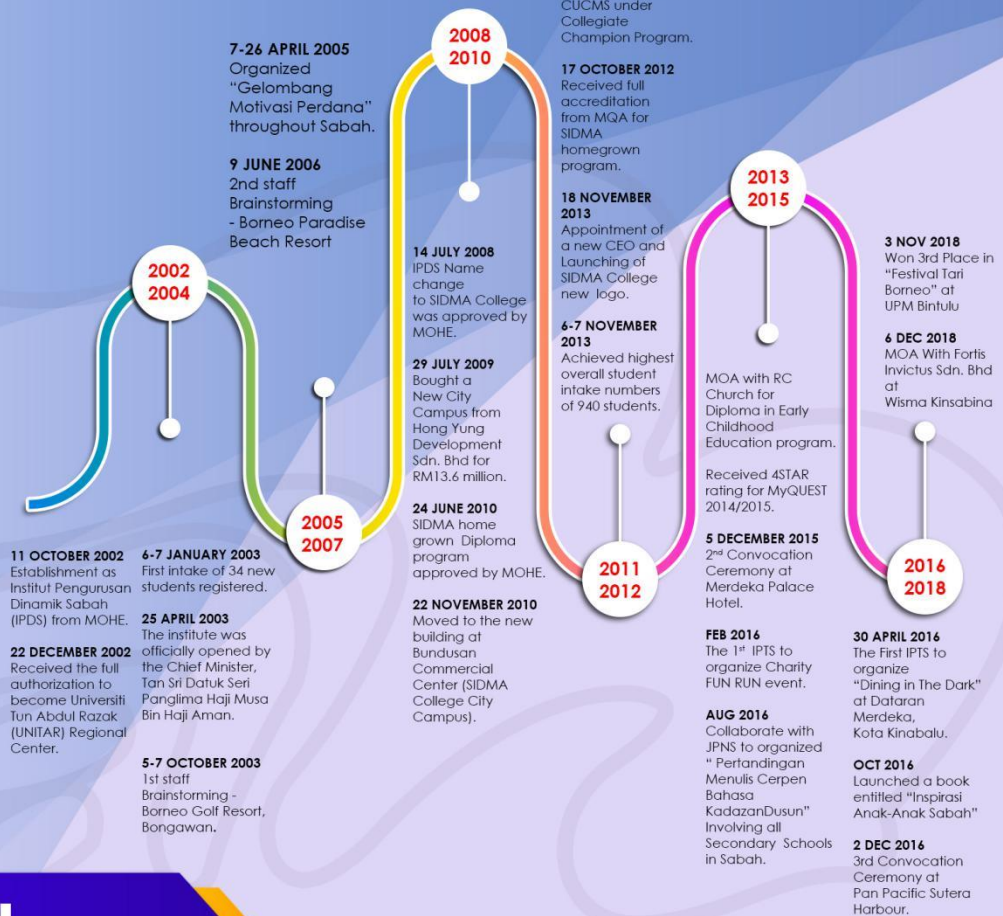

Aimed at achieving its mission of producing knowledgeable, skilful and competitive graduates. SIDMA college is committed to equip its students with quality knowledge and skills through the provision of excellent learning facilities and educational support services. Driven by its Vision and Mission, facilities are constantly upgraded to ensure that only the best are delivered to its students and the public at large.

## DIPLOMA IN BUSINESS ADMINISTRATION (R-DL/345/4/0159) 4/22 (FA 1709)

### INTRODUCTION

Management plays a vital role in the business world as it involves the process of organising and carrying out activities efficiently and effectively. The scope of management not only includes managing people but also other resources within an organisation. This programme is designed to equip students with practical skills and knowledge in management. As new technology inevitably alters the nature of how an organisation works, the pace of change demands a constant review of procedures and process. Technological and supervisory skills are vital for a new environment to run smoothly and effectively. As such, the main objective of this programme is to prepare students for managerial positions with a sound IT knowledge and to secure professional ethics in carrying out their managerial duties and responsibilities.

## **BACHELOR OF EDUCATION (Early Childhood Education)(Hons) (R/141/6/0042) 05/20 (A10949)**

### **INTRODUCTION**

This programme will help to equip the graduates with the knowledge and skills to be early childhood educators and related professionals. According to the Malaysian Education Development Plan 2001-2010, the Ministry of Education will make an effort to ensure that all primary schools are graduate teachers.

As of current demand, there is a critical shortage of qualified early childhood education teachers in both government schools and private institutions. The demand for highly qualified teachers who will serve as expert resource persons in early learning program is very high. The programme is offered as there is a need to train and produce quality and excellent professional early childhood educators that embody university's mission and vision. This will also provide opportunities for graduates to work in schools, colleges, government and non-governmental agencies as well as the private sectors.
